Object Oriented Programming & Data Structures (Java)
        Problem-solving in OOP using Java, and an introduction to data structures.
Introduction to Programming Languages (C, C++, Prolog, Scheme)
        Problem-solving in procedural, declarative, and applicative programming languages.
The Odin Project - Foundations (HTML, CSS, Javascript)
        Project-based curriculum on the fundamentals of web development.

PROJECTS:

Calculator: *Javascript, HTML, CSS*
A functional calculator built without the use of the built-in calculator function. Performs basic arithmetic operations with or without decimals. Features a back button and a clear button.
Project | Code
Rock, Paper, Scissors: *Javascript, HTML, CSS*
A rock, paper, scissors game with a simple UI built using the DOM. Select rock, paper, or scissors and play five rounds against a computer.
Project | Code
Landing Page: *HTML, CSS*
A responsive landing page built using a reference photo. Through manipulation of the styles on the site, the landing page looks like the reference. Features photos of cute bunnies.
Project | Code
